```

입력받을 때 에러가 나서 scanf가 있는 line12를 확인하고  
line 12 scanf("%d",sec); --> scanf("%d",&sec); 로 변경.

```

(gdb) run
Starting program: /home/taeyoung/prg/stom
Enter the number of seconds
Enter 0 to end the program
[Inferior 1 (process 4841) exited normally]
(gdb) quit

```

입력이 안 받아져서 확인해보니 sec값 초기화되어있지않음.  
line 6 int sec, min, left; --> int sec=1, min, left; 로 변경.
